

My name is Šišić Faris and I am a Software Development Engineer based in Sarajevo, Bosnia and Herzegovina. Regarding my formal education, I am a Bachelor of Electrical Engineering and I have a Masters Degree in Management and Information Systems.

My main focus is working on Front End, creating, designing and developing high-quality, aesthetic and modern content. Nevertheless, my abilities do not stop there, as I am skilled in Back End technologies and more.

## EXPERIENCE

### Endava / Senior Software Engineer

January 2022 - Present

#### Educational Platform with over 400.000 Active Users

- Developed a user-friendly interface for screen-sharing and starting various types of lessons
- Helped the design team to enhance the user experience for screen-sharing and lesson-starting flow

Tech Stack: React, Redux, JavaScript

#### Streaming Platform

- Set up one of the applications for device management from scratch
- Implemented the user settings page, devices list and multiple language support

Tech Stack: React, Electron, WebSocket, TypeScript

#### Shipping Application for a Large Retail Company

- Implemented the new shipment details page from scratch along with designing the new user interface
- Designed and developed the shipments page along with implementing the pagination and filtering on both Back end and Front end components
- Developed a user-friendly drag-and-drop interface for uploading new shipments using Excel and other file formats
- Implemented the shipments storing on the Back end component using semaphoring
- Refactored the whole codebase for the Front end component

Tech Stack: React, Redux, Typescript, NestJS, NodeJS, PostgreSQL, Docker

### Softhouse / Software Engineer

April 2020 - December 2021

#### Digital Identification and Knowledge System for CNC Tools

- Implemented multiple features on three different Web applications
- Developed several features utilizing Web Bluetooth API
- Added support for the QR code identification
- Proposed several UI and UX enhancements and wrote technical documentation for the complete project

Tech Stack: React, Redux, JavaScript, SASS, ASP.NET, NodeJS, Docker, Kubernetes, Auth0

#### Boilerplate and Admin Panel Project

- Developed and implemented several features for a boilerplate project used as a starting point for several big projects in the company
- Optimized the existing user settings page
- Designed and implemented the new landing page and contributed to multiple UI/UX enhancements on the project

Tech Stack: React, Redux, JavaScript, Express, NodeJS, MongoDB

### ITAcademy by LINKgroup / Lecturer

November 2022 - Present

- Lectured *Front end Development* (HTML, CSS, SCSS, JavaScript, TypeScript, API, Firebase) and *Introduction to React* to several different groups with over 30 students

### Freelancing / Software Developer

March 2018 - Present

#### Blood Donation Platform

- Designed the database architecture and implemented the Back end component
- Designed a modern and user-friendly interface, implemented the Front end component together with the Back end component integration

Tech Stack: React, Redux, JavaScript, SCSS, Express, NodeJS, MongoDB

#### Leading Marketing Agency Website

- Transformed user requirements and UI/UX design into high-quality code
- Implemented a simple Admin Panel for project uploading and image storing using Firebase services

Tech Stack: React, TypeScript, SASS, Firebase

#### Online Service Marketplace Platform

- Lead Front end developer, designed and implemented the Front end component together with Back end component integration

Tech Stack: React, TypeScript, SASS, NodeJS, PostgreSQL, Docker, Sequelize

#### Dental Office Website

- Designed and implemented the website by mapping user requirements into highly maintainable code

Tech Stack: WordPress

#### Tobacco and Gift Shop eCommerce Store

- Designed and implemented an aesthetic and minimalistic eCommerce store
- Created new branding guidelines for the store
- Maintaining the website, social media and marketing strategy

Tech Stack: WordPress, WooCommerce

---

## EDUCATION

### Faculty of Economics and Business / Master's Degree

Management and Information Systems  
2020 - 2023

### Faculty of Electrical Engineering / Bachelor's Degree

Computer Science and Informatics  
2017 - 2020

---

## SKILLS

### Front End

React, Redux, JavaScript, TypeScript, HTML, CSS, SCSS, Bootstrap, Tailwind, Wordpress

### Back End

NodeJS, Express, NestJS, GraphQL, Java, SQL

### Other

SCRUM, Shopify Plus, Liquid, Team Leading, Lecturing

---

## AWARDS

### Hackathon "Just Do It" Sarajevo / Innovation Challenge

Winner  
December 2019

---

## LANGUAGES

**Bosnian** / Native
